SMART BOOK

ONM Systems Limited offer a complete set of handheld solutions. The feature rich SmartBook suite of software, which will run on standard Android and iOS devices, will enable you to improve user productivity, accelerate billing cycles and reduce error prone paperwork. Our customer focused approach means we work closely with our customers to ensure a high quality accurate on-time solution is delivered.

How it works;

- The relevant data is extracted from your ERP/Accounts solution.
- Sales Representatives access the customer details on their Tablet/Smartphone device.
- Product Order/Delivery quantities are recorded.
- Electronic customer signature is recorded.
- Transactions may be printed or emailed to the client.
- Office personnel view and import the completed transactions to your ERP/Accounts solution.

Features and benefits;

- Easy to operate.
- Accelerate Billing Cycles.
- Reduction in operating costs.
- Reduction in error prone paperwork.
- Increased visibility of mobile workforce.
- Van Stock control.
- Works online or offline.
- Go Paperless?
- Electronic signature capture.
- View historical sales data.
- Journey planning.
- Customisable.
